

# “Roots hold me close”

**Borrowing segments from a UU Community of Charlotte, NC Church Service (originally broadcast on 5/23/2021), this week’s Westminster UU Church Service examines the multi-layered, contradictory, and always challenging evolution of American history. Our complex society presents us with the burden of uncovering hidden social processes, exposing their weaknesses, and inviting their improvement. Please join us as we journey into the core of what it means to be united in truth-seeking, to celebrate our freedoms, and appreciate the UU role in transforming the future.**
